SUMMARY

I am a B. Tech student in Computer Science Engineering from the National Institute of Technology, Patna. I possess strong programming skills in C, glsl,JavaScript, and various front-end technologies. My projects include a web chat app and an AI image generator. I am eager to develop my skills further through practical experience such as my recent internship at Astomverse.

EXPERIENCE

3D Intern

Astomverse

📅 09/2024 - 04/2025

Internship focused on 3D modeling and community collaboration

- Developed various soft skills while working on team projects
- Enhanced communication skills during the internship
- Gained experience in using Blender for 3D modeling

EDUCATION

B. Tech

National Institute of Technology, Patna

📅 07/2024 - 05/2028   📍 Patna

12th

JOHN Milton Public School, Agra

📅 03/2023 - 04/2023   📍 Agra

10th

JOHN Milton Public School, Agra

📅 03/2021 - 04/2021   📍 Agra

LANGUAGES

Hindi
Proficient   ●●●●○

English
Proficient   ●●●●○

KEY ACHIEVEMENTS

Web Chat App Success
Built chat app with to enhance community building.

Optimized AI Platform
Boosted image generation speed by 30% using API.

3D Modeling Internship
Implement more than 40 3D models in 6 months.

STRENGTHS

Technical Skills
Strong problem-solving abilities and leadership skills

Soft Skills
Effective team collaboration and communication

SKILLS

CSS	Git	GitHub	GSAP
HTML	React	REST API	Three.js
Vercel	GLSL	WebSockets	
Blender 3D	Node.js	Chess	Tailwindcss

PROJECTS

WEB CHAT APP

📅 03/2025 - 03/2025

A community-based web chat application

- Developed a web chat application enabling users to connect and chat with community members
- Utilized MERN Stack, REST API, and websockets

Dalle 2.0

📅 05/2025 – 05/2025

A generative Ai based web app

- Developed a web chat application enabling users to generate images and share it with community members
- Utilized MERN Stack, REST API, gemini-api.
